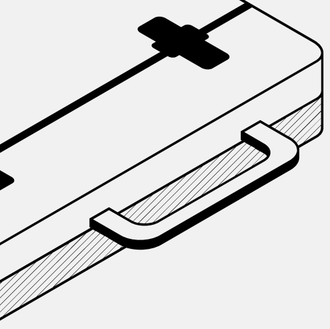
THE WINNER

GET EMBEDDINGS FOR YOUR AI NEEDS



RAG IS RAD

Users need RAG

This tweet from ICP founder is only a few days old!

RAG needs embeddings

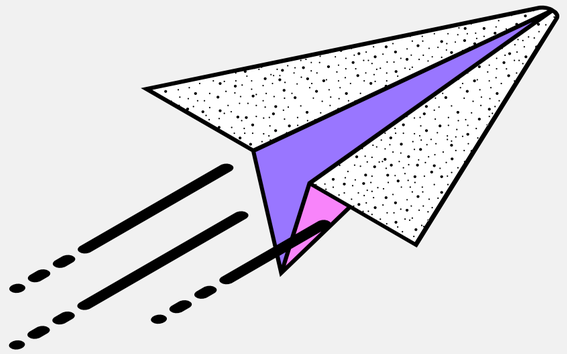
A need for specialized datasets

In order to leverage specialised **AI agents**, while ensuring **secure, decentralised data sharing** to protect sensitive information.

THE TARGET AUDIENCE

Buyers

AI **startups**, research institutions, application makers, and enterprises needing rare and specialized datasets to provide contextual data through **retrieval-augmented generation (RAG)**.



Sellers

Private **companies**, domain **experts**, **universities**, and businesses with proprietary **datasets** that can be used to enhance AI models while maintaining privacy.

THE SOLUTION

GETEM is a privacy-focused embedding marketplace powered by Calimero Network and ICP.

1

Embeddings generation:

we use the best LLM model to generate embeddings, data is kept locally

2

Embeddings sharing

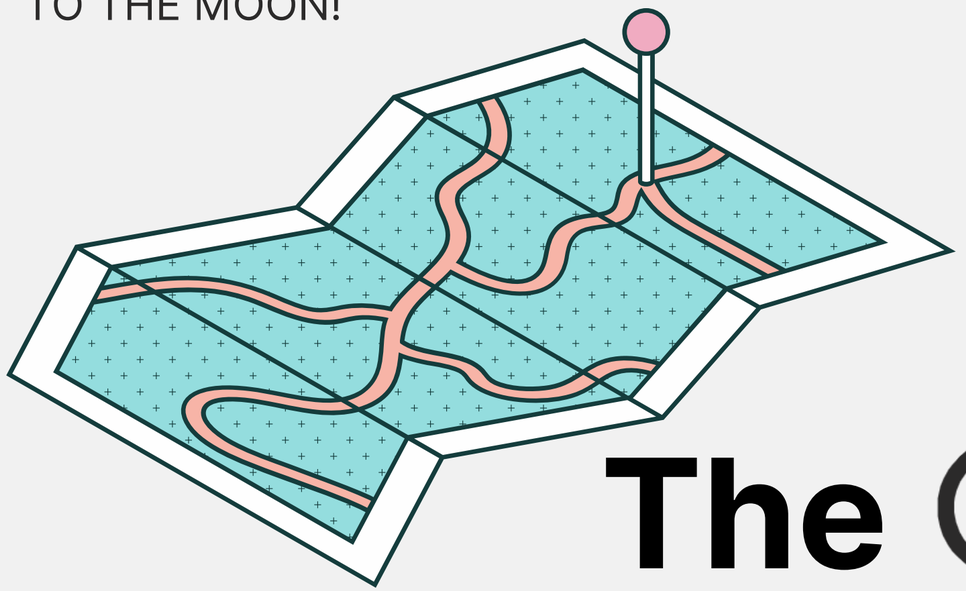
embeddings are shared in the *GETEM* platform

3

P2P Connection

Buyer is added to seller context and access data (seller kept it local the whole time)

TO THE MOON!



The GETEM roadmap

NNS

5

1 - POC

P2P embedding transactions with wallet-based payments.

2 - MVP

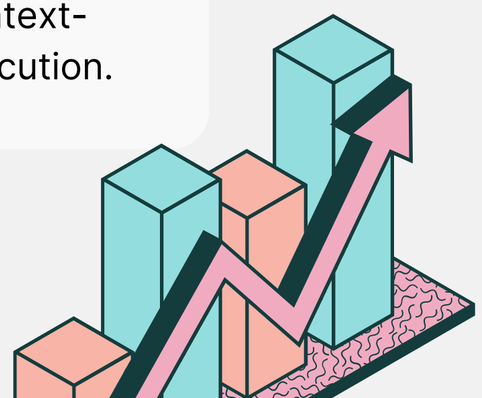
Automate embedding transactions using ICP/Calimero proxy & context contract.

3 - Full Web3

Move frontend & marketplace fully to ICP.

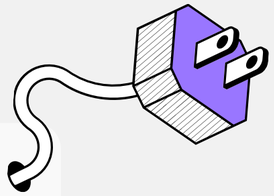
4 - Agent

RAG with a special AI node, allowing private, context-aware AI execution.

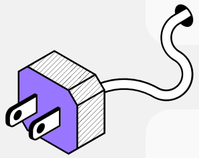


THE STACK IS GOLD

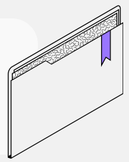
calimero



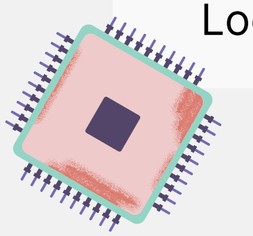
P2P - Sale is decentralized



Safe: Embeddings are shared, not data



Local compute (embeddings generation



DFINITY

Context management through smart contract:
proxy, context and Getem

Safe payments with Plug Wallet

A use case that makes sense

A strong team

CONTRIBUTIONS

Already opened 5 issues on various Calimero repos

Stefano

AI enthusiast, **Philosopher** and enterpreneur

Leonard

Developer at **Dassault Systems**, implementing AI feature in 3D software

Daniil

Developer at **Plug** and Tietoevry, long term ICP holder

Created a powerfull Makefile to simplify the launch of Calimero X ICP Dapps

THE SAFE PLATFORM FOR YOUR DATA NEEDS
